M | MASTERclass TONGA 2015

Our annual Masterclass event in our headquarters has once again shown its success! This year's event took place for the fifth time on the 16th and 17th of April, giving our customers and manufacturers a chance to experience Tonga B.V. from close by.

We developed the Masterclass sessions to update and inform our customers about the newest products and lines we offer and getting firsthand information from our manufacturers. Thanks to the intimate character of the event, customers have the ability to get more detailed knowledge and a direct response on any questions they might have.

This year Pipedream Products, Shunga, System JO, Evolved Novelties, Baci Lingerie, OVO, Zolo, Blush Novelties, Sportsheets, Impulse Novelties, California Exotics Novelties and Roxana Lingerie had the chance to present their products during forty-five minutes sessions.

Steve Sav, VP Sales at Pipedream Products, kicked off the presentations at Thursday electrifying the crowd with new additions from the Fetish Fantasy Series Shock Therapy and presenting three of Pipedream's newest lines - iSex, Crush and King Cock.

Tom Stewart, founder and CEO of Sportsheets attended the Masterclass with Sylvia Lopez, presenting their Sportsheets, Edge and Sex&Mischief products and latest creation - the Sexperiments line.

Manon Vallée, founder of Eau Zone, showed the newest Shunga products with newly added fragrances and flavors to their massage oils, edible massage oils and lip gloss assortment.

Verna Meng and Benny Neff showed the Blush Novelties products, which are exclusively available by Tonga B.V. in Europe.

“Masterclass, once again a big success”

To mix business with pleasure and give participants a glance in our Dutch culture, presentations were alternated with a variety of activities, including a lunch on top of a wind mill and a visit to local bars. Organizing and hosting our annual Masterclass and accompanying activities gives us the chance to get to know our participants and welcoming them into our 'Tonga family', where we try to make them feel at home as much as possible.
